

Global Onboarding

Safely onboard more merchants, faster, without increasing risk

The Problem

Onboarding merchants at scale is slow and inconsistent.

Manual reviews, fragmented data, and limited visibility make it difficult to approve good merchants quickly without increasing fraud and compliance risk.

The Solution – Global Onboarding

Global Onboarding centralizes merchant risk evaluation at the point of onboarding.

It uses AI-driven insights, trusted data, and expert review to **help teams make faster, more confident approval decisions, without sacrificing risk controls.**

Why Global Onboarding

Because making the right merchant approval decision requires trusted data, intelligence, and expert judgment from day one.

Key Outcomes

- ✓ Onboard more merchants with confidence
- ✓ Reduce fraud and compliance exposure at initial entry
- ✓ Make faster, more consistent approval decisions across teams
- ✓ Scale merchant acquisition without adding manual effort

**Intelligent risk
assessment for real-time
approvals**

AI-driven scoring with 20+ years
of merchant behavior data
